

Blanket Purchase Agreement 47QMCA22A0003 FAQ

Contract Holder

Contract # GS-30F-0029Y

Apollo Sunguard Systems, Inc. was awarded this BPA by GSA Fleet for Electric Vehicle Supply Equipment (EVSE) for electric vehicle (EV) charging stations and Ancillary EVSE Data Services.

What can I purchase from the BPA?

Apollo Sunguard offers a variety of EVSE configurations for Level 2 and DC fast charging stations for ChargePoint products as well as EVSE Data Services. We also carry the FreeWire Boost Charger which is a powerful and flexible solution in ultrafast charging.

Who can utilize this BPA?

This BPA is available to all agencies who are authorized to lease or purchase vehicles from GSA Fleet.

When is the BPA available?

The duration of the BPA is 60 months. April 22, 2022 through April 21, 2027.

Why is the BPA being offered?

To support current and future federal fleet electrification needs and enable Agencies to deploy workplace charging. Apollo has the expertise to assist in the set up of both, based on Government policy.

How to purchase off BPA

Contact Apollo's BPA Administrator at 800.319.1010 or evsales@ApolloSunguard.com or Matt Bianco at mbianco@fedwayconsulting.com
